978-3-86922-332-2 (Russian)

EUR 98,00 USD 129,95

September 2014 USA: October 2014

In this handbook on successful hotel planning, the authors present an in-depth planning aid for the design and construction of hotel property. In doing so, the requirements of both hotel operators and planners are considered simultaneously.

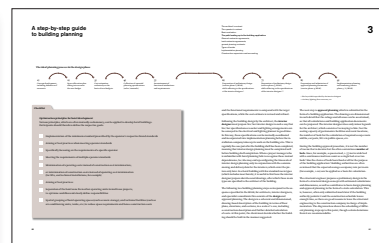

Hotel Buildings is addressed to architects, interior designers, project managers, as well as project developers, property developers, and hotel operators. Having implemented their own hotel projects, the authors are experts on this building typology. On more than 300 pages they provide valuable advice on avoiding typical planning errors. Accompanied by detailed drawings and explanations, this book is a true asset.

- > Checklists for planning
- > Functional diagrams and floor space requirements
- > Approaches for cost optimisation
- > Requirements for safety and hazard management
- > Glossary and keyword index
- > Trilingual lexicon on hotel planning

Manfred Ronstedt (born 1952) studied architecture and civil engineering. He was managing director of the hotel planning firm PCG in Hanover, and for 25 years has provided planning and consultancy services for hotel projects across central and eastern Europe. He holds lectures on hotel planning and has various publications in reference books.

Tobias Frey (born 1977) studied architecture and construction industry studies. He freelanced at the office of Phase eins in Berlin, and worked with PCG on hotel planning projects in eastern Europe and Russia. His publications have appeared in various reference books.
